

Repacking Guide

For LX7 and LX9 models

Please be sure to include all components of the inversion table in your returned order, including the DVD and instructions, otherwise you may not be eligible for a complete refund.

Begin by using the original box and bags that came with the inversion table. If you do not have the original box, contact Teeter Customer Service at 800-847-0143. Product returned in an unauthorized packing container may not be eligible for a complete refund.

DO NOT disassemble the product into more components than the parts listed below.

- | | |
|---|---------------------|
| ① Table Bed | ⑤ Handles |
| ② A-Frame | ⑥ Roller Hinges |
| ③ Main Shaft with Ankle Lock System | ⑦ Boarding Platform |
| ④ Accessories, Hardware & Handle Brackets | |

1 Start by disconnecting the inversion table into its primary components: Table Bed, A-Frame, Main Shaft with Ankle Lock System, Handles (Refer to Step 2), Accessories, Roller Hinges, and Boarding Platform (Refer to Step 3). **DO NOT** disassemble any component into smaller parts (Figure A).

2 Remove the Handles & Handle Brackets

Untighten the Handle Bracket Bolts and Screws using (2) 5mm Allen wrenches (Figure B). Remove both Handle Brackets from the A-Frame.

Untighten the (3) Handle Bolts from each Handle (Figure C). Remove both Handles from the A-Frame (Figure D). If the Cup Holder is attached, remove it from the A-Frame by unscrewing the Phillips Head Screw.

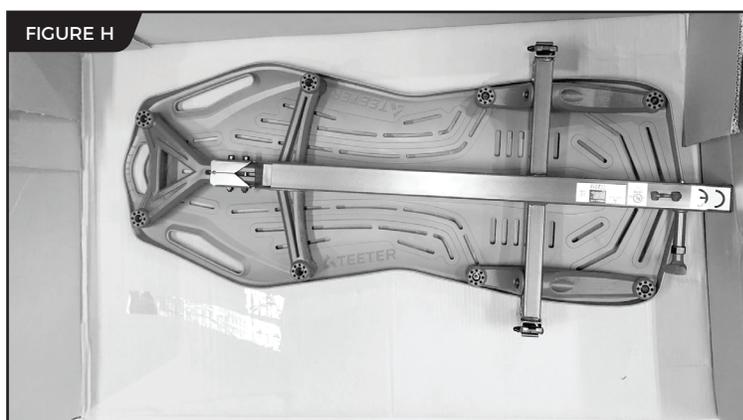

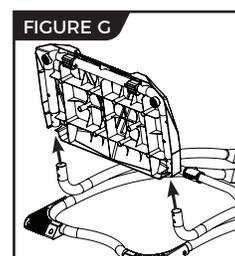

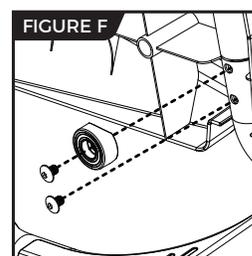

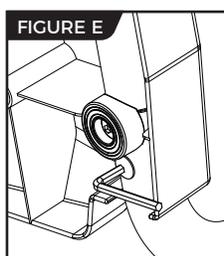

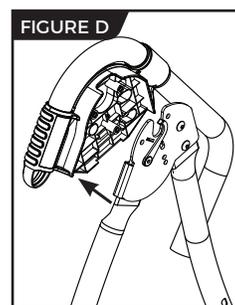

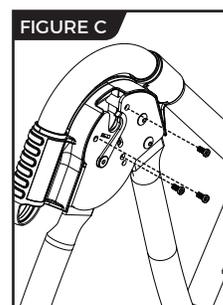

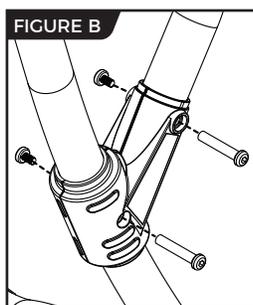

3 Remove the Boarding Platform

Untighten all (4) Boarding Platform Bolts using the 5mm Allen Wrench (Figure E). Remove (2) Rubber Feet (Figure F). Place all parts into the Small Bag. Remove Boarding Platform from A-Frame (Figure G).

4 Repacking the Table Bed

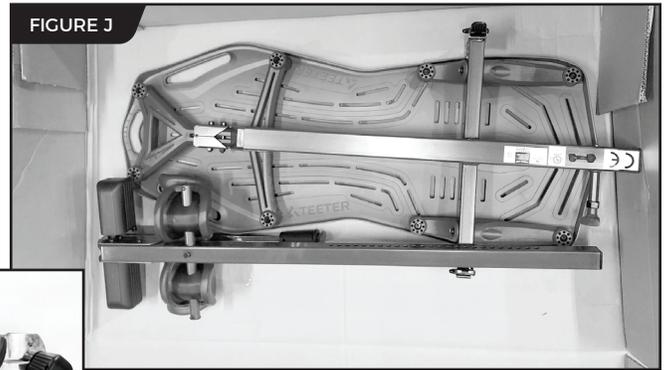

Remove the accessories (if assembled) from the Table Bed. Place the Table Bed face-down into the box off to one side as shown (Figure H).

NOTE: Figures do not show all bags used in repacking for easier viewing of box assembly. Inversion Table model below may vary from your own, however the same instructions apply.

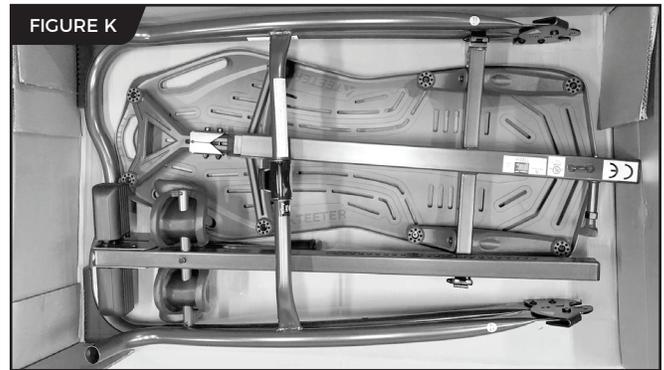

4 Repacking the Ankle Lock System

Close the Deluxe EZ-Reach Ratchet to the smallest setting (Figure I). Place the Ankle Lock Face-side down next to the Table Bed as shown (Figure J).

5 Repacking the A-Frame

Place the A-Frame into the Large Bag to prevent scratching and then place into the box on top of the Table Bed and Ankle Lock System (Bag not shown here). You may need to slightly shift the Table Bed for a proper fit (Figure K).

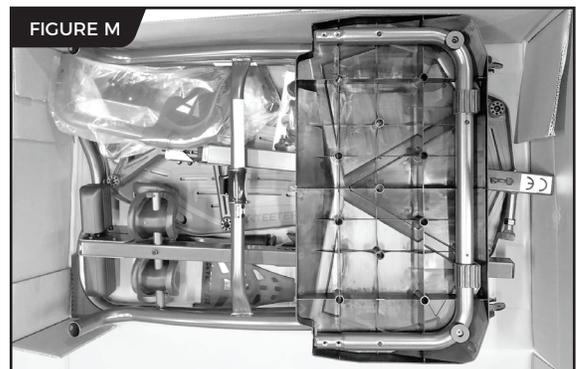

6 Repacking the Handles, Roller Hinges & Accessories

Slide the Handles into a Medium Bag, the Roller Hinges into another Medium Bag, and the small Accessories, Hardware, Handle Brackets and Product Support Materials into the Small Bag and pack all parts as shown. The larger Accessories including the Lumbar Bridge, Head Pillow, and Cup Holder can remain loose in the box as shown (Figure L).

7 Repacking the Boarding Platform

Place the Boarding Platform face-down on top of the base of the A-Frame as shown (Figure M).

8 Sealing the Box & Attaching the Label

Seal the large box securely with packing tape, affix the return label and mark your Return Authorization Number (RA #) on the outside panel of the box.

IMPORTANT: Teeter Inversion Tables cannot be returned without a Return Authorization Number. Please contact Teeter Customer Service at (800) 847-0143 or email info@teeter.com for assistance.

If you have any trouble assembling the equipment, or questions about its use, please contact customer service.
